About SPRING -INTO- HEALTH Month

September is Library Health Month across Western Sydney.

Western Sydney Local Health District has partnered with libraries from Blacktown City, City of Parramatta, Cumberland City and The Hills Shire Councils to encourage library goers to eat healthy and be active every day.

During September, libraries will have activities and information to help you and your family be healthier. FREE Healthy StoryTimes, Healthy Lunchbox sessions, Healthy and Active for over 55s sessions, plus many more activities will be running at a library near you! Library Health Month can be delivered online, face-to-face or in combination depending on Public Health restrictions at the time.

Libraries will also have information on FREE NSW Health programs for you and your family including, Get Healthy Service, Go4Fun, Stepping On and Healthy and Active for Life Online.

This booklet is a one stop shop of the health information that will be promoted in libraries during September.

To find out what's running at your library visit their website or call today:

CHILDREN

Healthy Eating for Children

What children eat during childhood can influence their future eating habits and health. By giving children plenty of fruit and vegetables, we can help give them the best start for their growth and development.

Eat more vegetables and fruit

Vegetables and fruit taste great and keep us healthy. Everyone should eat fruit and veggies every day. Most kids eat fruit each day but they don't eat enough veggies.*

HOW MANY VEGETABLES SHOULD KIDS EAT EACH DAY?

2-3 YEARS

2½ Serves

4-8 YEARS

4½ Serves

9-18 YEARS

5 Serves

A serve of vegetables and legumes/beans is:

½ cup

vegetables (fresh, frozen or canned)

1 cup

green leafy vegetables

½ cup

legumes/beans/lentils

1 medium tomato

8

vegetable sticks

These count as a vegetable serve

HOW MUCH FRUIT SHOULD KIDS EAT EACH DAY?

2-3 YEARS

1 Serve

4-8 YEARS

1½ Serves

9-18 YEARS

2 Serves

A serve of fruit is:

1 medium

(apple, banana, orange or pear)

2 small

(apricots, kiwi fruit or plums)

1 cup

diced or canned fruit

TIPS TO HELP KIDS EAT VEGGIES

ADD TO EVERY MEAL

Salad on sandwiches/wraps

Offer cut up veggies as snacks

Fill half the plate with veggies

ENCOURAGE YOUR CHILD

Show them you like eating veggies too

Add veggies to food they already like

FOR A GREAT PLACE TO BEGIN, WE HAVE THE LATEST HEALTHY EATING FACTS AND TIPS LIKE:

- Eat more vegetables and fruit
- Choose healthy snacks
- Choose water as a drink

*Australian Bureau of Statistics (National Health Survey, 2014-15)

**Recommended intakes have been rounded based on the Australian Dietary Guidelines (NHMRC, 2013).

Choose healthy snacks

Healthy snacks help meet kids' nutrition needs. Choose snacks based on:

- vegetables • fruit • milk • cheese • yoghurt • wholegrain breads, crackers and cereals

TIPS TO PLAN HEALTHY SNACKS

Include a vegetable and fruit snack each day

Keep a range of healthy snacks in the fridge and pantry

Get your kids to help prepare snacks

Cut up vegetables and fruits so they are easier to eat

Show kids you enjoy eating healthy snacks

WHAT IS A HEALTHY SNACK?

Include fresh foods & wholegrain varieties as snacks

*wholegrain rice crackers

*vegetable pancake

*homemade popcorn, no added salt or butter

*hummus

*reduced fat cheese

High fat and sugar snacks • no more than 1 a day • only a small serve

*rice bubble bar

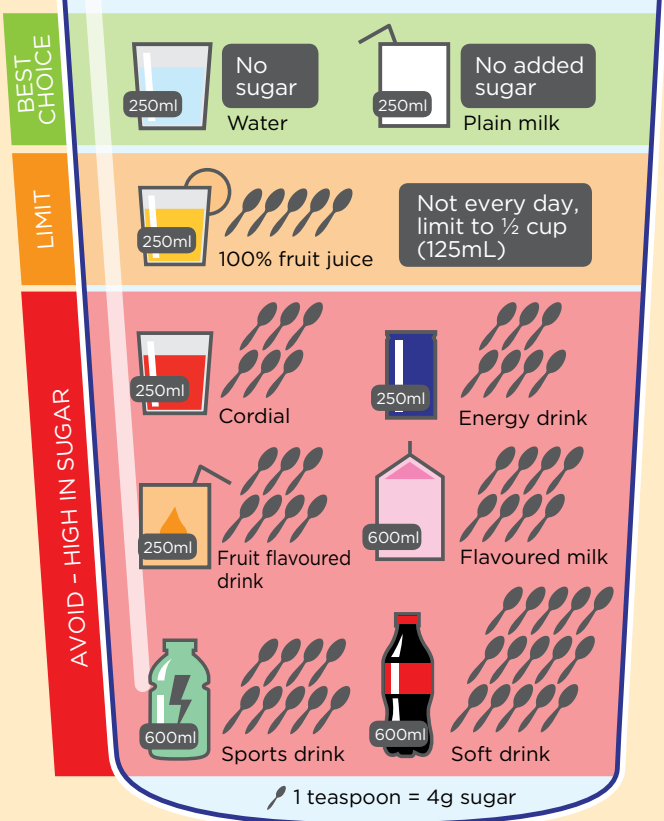

*fruit strap

Choose water as a drink

Water is the best drink. It has no added sugar. Fruit juice, soft drink, sports drinks and cordials have a lot of sugar. Kids should not drink these every day. Tap water is the best choice. Most tap water contains fluoride which helps kids grow strong teeth.

HOW MUCH SUGAR IS IN DRINKS?

HOW MUCH WATER SHOULD KIDS DRINK EACH DAY?

1-5
years

5 x 250ml glasses = 1.25 litres

6-12

TIPS TO HELP KIDS DRINK MORE WATER

Show them you like drinking water too

Drink water throughout the day

Take a bottle of water when you go out

Pack water with your child's lunch

Choose water as a drink when playing sport

Save money - don't buy sugar sweetened drinks

Getting Active for Children

THERE ARE SO MANY REASONS WHY CHILDREN SHOULD GET ACTIVE LIKE:

- It's fun!
- They can make friends
- It improves their concentration in the classroom
- It improves their mental health
- It improves their health and fitness

The most important thing is finding something they enjoy doing.

Find more information, tips and free programs on pages 9, 10, 11 and 12.

Get active each day

Being active helps us stay healthy. Find lots of ways to be active each day.

HOW MUCH ACTIVITY SHOULD KIDS DO EACH DAY?

Toddlers 1-2 years Preschoolers 3-5 years

3 hours

active play

- Standing up
- Moving around
- Active toys

across the day

School age 5-12 years

1-3 hours

physical activity

- Be active so your breathing and heart beats faster:
- fast walking
 - riding a bike or scooter
 - playing sport

across the day

Source: Australia's Physical Activity and Sedentary Behaviour Guidelines and Australian 24-Hour Movement Guidelines for the Early Years (Birth to 5 years)

TIPS TO GET KIDS ACTIVE

Babies need 30 minutes of tummy time each day. Encourage them to crawl.

Toddlers can walk instead of using a stroller

SCHOOL Walk, ride a bike or scooter to school

Choose toys that help kids move

Limit screen time each day. Choose active play instead

Encourage kids to try a range of sports

Look for lots of ways to be active each day

Show your kids you like being active too

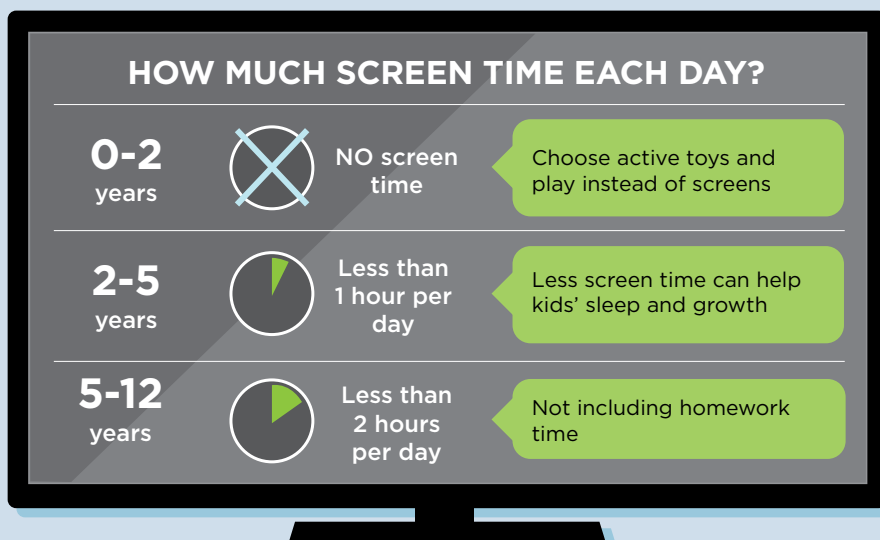

Outdoor play is best. Keep active indoors when it's hot or raining

Turn off screens + get active

Screens can be great for learning, play and communication. Too much screen time can be unhealthy. Try to sit less and move more.

Source: Australia's Physical Activity and Sedentary Behaviour Guidelines and Australian 24-Hour Movement Guidelines for the Early Years (Birth to 5 Years)

TIPS TO MANAGE SCREEN TIME

- Eat together as a family. No screens at meals for parents and kids
- Before screen time - sleep, play outdoors, read and enjoy family time
- No screens in bedrooms, especially at night
- Take toys or books instead of screens when going out
- Monitor kids' screen time. Set limits if needed
- Sit less. Move more. Move every hour
- Help kids sleep. Stop using screens 1 hour before bed
- Parents - be a good role model. Reduce your screen time too
- Dance to music, or play video games that get you on your feet.

ADULTS

Healthy Eating for Adults

FIND OUT THE BASICS OF “EVERYDAY” FOODS AND EASY TIPS FOR ADDING THESE INTO YOUR DIET.

Drink one more glass of water today

Drinking plenty of water is an important part of staying healthy. For example, replace one drink that contains sugar – like a soft drink, juice or sports drink – with a glass of water each day. Take a look at our [life hacks for drinking more water](#).

Pack one healthy snack to take with you tomorrow

It's ok to snack, just snack on food that's actually going to make you feel stronger and healthier. One less sweet snack a day can make a difference to your health, so why not switch it with your favourite fresh fruit? Take a look at our [tips for healthy snacking](#).

Plan ahead for one dinner

Plan one night this week to cook at home. Learning one new [healthy recipe](#) and adding it to your routine can make a big difference to your weekly habits.

Check out our guide for how to [shop smart](#), [shop healthy](#) to help you write your shopping list.

Cut out one take-away meal from your week

Now that you've cooked your own dinner and packed your own snack, you can save money by skipping a take-away meal. Restaurant and take-away meals are typically too large and contain too much salt, saturated fat and sugar, and not enough vegetables and fibre.

Get smart with packaged food

Learn [how to read food labels](#) on packaged foods to check ingredients, kilojoules, portion size and other nutritional information.

Set your own personal goals

Use our [food calculator](#) as a guide for what to eat every day and start setting your own small, specific goals to get there.

Getting Active for Adults

WE HAVE BUSY LIVES WHICH SOMETIMES MAKES IT HARD TO BE ACTIVE. But you can take small steps to start living a healthier and active life.

Add a 5 minute walk around the block during your lunch break or a 5 minute stretch

Break up long periods of sitting as often as possible. Sitting for many hours each day can affect your health in many ways, even if you are exercising daily. This includes time spent sitting in front of screens. [Read our tips to reduce screen time.](#)

Try interval training

Your body will continue burning kilojoules (energy) for longer and you can achieve greater benefits. Try adding bursts of jogging to your usual walk or if you are already jogging try adding short sprints.

Get moving during the ad breaks

Try some [simple exercises](#) while you're watching TV – such as squats, standing repetitively onto your tippy toes, star jumps or marching high knees.

Walking in Western Sydney

WALKING IS THE MOST POPULAR EXERCISE.

It is free, good for the mind, body and the environment, and can be done by most people. So try to walk every day!

Walking just 30 minutes each day can help you to feel fitter, healthier, happier. To achieve this, try aiming for a 30 minute walk or three 10 minute walks each day. Swap short car trips for walking.

TIPS for increasing walking in your day

WALK FOR TRAVEL

- Try swapping short car trips for walking
- Park further away from the shops, work, school or child care
- Take public transport

WALK WITH FAMILY OR FRIENDS

- Start a walking challenge with your friends, family or colleagues
- Walk the dog more or offer to walk your neighbour's dog
- Join a walking group
- Walk around the oval while your child is playing sport
- Join a parkrun - free, weekly 5km walking or running events
- Take public transport

WALK AT WORK

- Take the stairs instead of the lift
- Try a walking meeting with your colleagues
- Walk during your lunch break
- Walk to a toilet that's further away from your desk
