2018 – 2019

# Fees and Charges

## REVENUE POLICY

Section 405(2) of the Local Government Act requires Council to incorporate a Revenue Policy into its annual Operational Plan.

The objectives of Cumberland Council's Revenue Policy are:

- To meet statutory requirements
- To establish the total revenue required by Council to fund its activities
- To identify the revenue sources available to Council

Council's Revenue Policy is based on the principles of Efficiency, Effectiveness and Equity, such principles guide the development of Council's Revenue.

**Efficiency** means to ensure that resources are devoted to the most valuable ends as determined by Council, whilst using as few resources as possible. It generally relates to the cost at which services and facilities desired by the community are delivered or provided.

**Effectiveness** relates to the satisfaction of stated objectives so that outcomes of decisions and the needs and demands of consumers are taken into consideration. Achievement is demonstrated by the provision of service standards that meet the needs of Council's customers.

**Equity** refers to ensuring that services are provided to those who need them, even though they may be unable to pay for the particular service. This document provides pricing policies for rates, annual charges and fees for specific services provided by Council.

The following graph shows the sources from which Council proposes to obtain its income in 2018/2019:

## PENSIONER REBATES POLICY

The former Councils had different policies which can't be amended until a further review of appropriate legislation is completed.

### 1. Former Auburn City Council

Eligible pensioners receive a rebate on their Rates and Domestic Waste management Charge, to a maximum of \$250.

### 2. Former Holroyd City Council

Eligible pensioners receive a rebate on their Rates and Domestic Waste management Charge, to a maximum of \$250 plus an additional pensioner voluntary rebate of \$15 per assessment.

### 3. Former Parramatta City Council

Eligible pensioners receive a rebate on their Rates and Domestic Waste Management Charge, to a maximum of \$250, plus an additional pensioner voluntary rebate of \$100 per assessment in accordance with the former Parramatta City Council Policy.

# PRICING POLICY

Council may charge and recover fees for any service it provides. This is exclusive of annual charges for services provided on an annual basis. The Pricing Policy is made up of a number of principles that are used by Council in determining the level of revenue to be raised from a particular revenue source. These principles are not mutually exclusive; several may be used in determining the appropriate amount.

Pricing Policy	Code	Description
Full cost recovery	FCR	Prices are determined in order to help ensure that scarce resources are not wasted and can promote more efficient investment in infrastructure, services and personnel.
Minimal cost recovery	MCR	<p>The pricing for these services is set below the financial cost of providing the service. The fees received are expected to make a minimal contribution towards the cost provision, with the balance being met from general revenues. This balance will be less than 50% of the overall cost to provide the service. The principles associated with this pricing category may include the following:</p> <ul style="list-style-type: none"> <li>■ expected to benefit the community as a whole;</li> <li>■ benefit of service may be spread across a large number of users including unrelated third parties; and</li> <li>■ objective is to enable maximum access to the service, particularly keeping lower income users in mind.</li> </ul>
Market Price	MP	<p>The pricing for these services is expected to recover the full cost of providing the service along with generating an appropriate rate of return. The principles associated with this pricing category may include the following:</p> <ul style="list-style-type: none"> <li>o the service is provided under commercial conditions; and prices will be set to compete with other market competitors, but not to unfairly price others out of the market.</li> </ul>
Statutory Amount	S	This is the amount required to be charged by statute. Where this principle applies, Council has no discretionary power to alter the amount.
Substantial cost recovery	SCR	The pricing for these services is set below the financial cost of providing the service. The fees received are expected to make a significant contribution towards the cost provision, with the balance being met from general revenues. This balance will be greater than 50% of the overall cost to provide the service. The principles associated with this pricing category will be similar to the ones identified for the Minimal Cost Recovery category, but to a lesser extent.
Security Deposit/ Bond	SD	To offset the cost of damages, non-return of Council property and unpaid fees.

## PRICING METHODOLOGY

For any fee or charge not specifically stated in Council's Schedule of Fees and Charges 2018/2019, Council determines fees in accordance with a pricing methodology being market rate. Should Council look to implement a fee other than market rate, the proposed new fee would be reported to Council for approval.

## CHANGES TO THE ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

Effective from 1 March 2018 changes have been made to the Environmental Planning and Assessment Act 1979. As a result of these amendments, the referencing numbers of some of the statutory payment to Council have been changed. Council are amending the description and reference to section of this act in the final draft. The updated descriptions are minor amendments and are classed as statutory fees S610a (2) and do not require further public exhibition.

## LOCAL GOVERNMENT ACT 1993 - SECTION 68 APPROVALS

Section 68 of the Local Government Act sets out a range of activities that require additional Council approval separate to the development. These include the following:

- Structures or places of public entertainment (Install a manufactured home, moveable dwelling or associated structure on land)
- Water supply, sewerage and stormwater drainage work
- Management of waste
- Community land
- Public roads
- Other Activities as outlined under S68 of the Local Government act 1993

For a detailed breakdown of the schedule of fees and charges for Council products and services, please see the *Detailed Schedule of Fees and Charges* companion document.

## GENERAL INFORMATION

### Builders Indemnity Insurance

Construction Certificates and Complying Development Certificates cannot be issued unless the applicant provides a certificate of insurance issued by an approved insurer under the Home Building Act 1989.

For owner/builder's insurance is not compulsory. However, you should contact the Department of Fair Trading to determine your legal responsibilities in the event you wish to sell your house.

No insurance is required on works valued less than \$20,000 value when carried out by a licensed builder.

An owner/builder's permit is required if the cost of works exceed \$5,000.

Poppy Possum Storytime Pack – (Includes Storyteller) – Weekdays		\$218.18	\$21.82	\$240.00	
---	--	----------	---------	----------	--

Paint Cumberland REaD is a community literacy capacity building program. The program's aim is to work with the community to support the development of children's early literacy skills from birth, so that they are ready for reading and writing at school. Research shows that foundation skills learnt between the ages of 0 and 5 years are critical for developing literacy skills at school. The philosophy adopted is that literacy is a key to life's success. Poppy the Possum is Paint Cumberland REaD's furry mascot who ventures to education and care services, public places, and local events to read children stories. Having Poppy around to promote literacy is an ideal way to show the community your commitment whilst marketing your service or business. this fee is for the cost of Poppy the Possum and a storyteller to attend a service on weekdays.
