LODGEMENT & PAYMENT OF APPLICATION

Your application will NOT be processed until FULL payment has been received for the scoping stage.

Please contact Council’s Planning Systems team during business hours on 02 8757 9000 or via email council@cumberland.nsw.gov.au should you wish to lodge or discuss a scoping proposal for your site.

Application information

- Scoping proposals are for anyone (developer/proponent/applicant) who intends to lodge a future planning proposal request/application with Council and would like to seek preliminary strategic planning advice to determine the proposed scope of their planning proposal in the initial stages of the planning proposal process **before** lodging a formal planning proposal request/application with Council.
- The proponent **must** contact the planning systems team first before an applicant/proponent intends to prepare and lodge a scoping proposal.
- Scoping proposals should provide sufficient planning information to ensure the planning proposal request can be easily understood, considered and demonstrates broader strategic and site-specific planning merit with the state and local strategic framework. Though the proponent is not required to undertake any detailed analysis/assessment at this stage, the scoping proposal stage enables a proponent to determine and demonstrate a broader overview of the potential proposal's strategic intent and objectives, determine opportunities and constraints, existing and proposed planning controls, key planning issues and identify infrastructure provisions required for a potential planning proposal application at an early stage which is to be lodged with Council in the future.
- The scoping proposal **must be** consistent with the Department of Planning, Housing and Infrastructure’s ‘Local Environmental Plan Making Guidelines’ (August 2023) and Scoping Report format at <https://www.planning.nsw.gov.au/plans-for-your-area/local-planning-and-zoning/making-and-amending-leps>
- One of the advantages of submitting a scoping proposal in the early stages of the planning proposal process is that Council can provide preliminary strategic planning feedback on a proposal and the proponent could consider Council’s planning advice provided by Council officers prior to lodging a formal Planning Proposal request/application with Council. This further prevents the proponent lodging an incomplete substandard proposal application for assessment which could also delay the strategic merit assessment and progress of a proposal to a panel/council meeting.

While the advice in preliminary feedback is given in good faith, it in no way binds any decision made by Council.
