

CUMBERLAND
CITY COUNCIL

Granville Ward

Capital Works Report

2020/2021

Granville Ward Infrastructure Works

Council is continually constructing and maintaining footpaths, roads, buildings, parks and drains.

Here's a highlight of our program and allocated spending to date for the 2020/21 financial year in the Granville Ward.

Major Works

Project	Spend During Period
The Granville Centre	\$972,177
Eric Tweedale Stadium	\$12,040,754
Merrylands CBD Upgrade	\$11,255,083

Granville Town Hall

Granville Ward Councillors

Councillor
Steve Christou - Mayor

Councillor
Joseph Rahme

Councillor
Ola Hamed

The Granville Centre

The Granville Centre opened in September 2020.

The new purpose-built community facility is located at the Granville Memorial Park site, at the location of the former Granville Youth and Community Recreation Centre.

The new Granville Centre provides local residents with a place where they can meet, study, create and perform.

Eric Tweedale Stadium

The construction of the Eric Tweedale stadium and field will provide a state of the art facility with grandstand seating for 750 spectators, male and female home and away changerooms, office and game day amenities, canteen and covered viewing deck.

The venue also boasts an al la carte function room for game day events, as well as corporate and community functions all year round. Council is also renewing the Granville Park car park to accommodate 127 car spaces for uses of the park.

Granville Town Hall

Major external restoration works commenced in March 2021.

The restoration includes repair to all external fabric, extensive repair to roof, upgrade of storm water and sewage system, realignment of boundary, major structural repairs, upgrade of external pavement (carpark) and external painting.

Merrylands CBD Upgrade

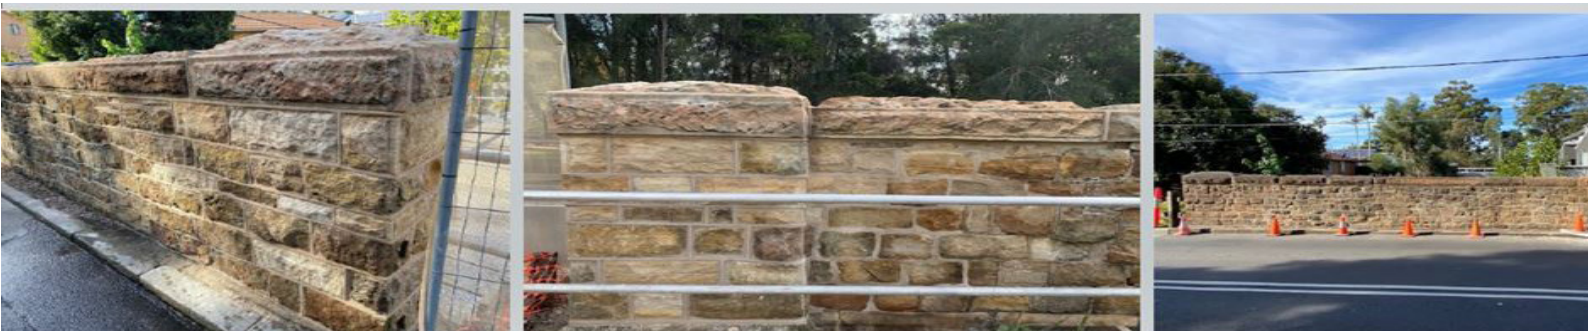

The Merrylands CBD drainage project consists of works in the Neil Street Precinct and Merrylands CBD. These works include the construction of new stormwater infrastructure, new roads, footpaths and bike paths. The Neil street precinct works are expected to be completed in late 2021 with the works in the Merrylands CBD expected to be completed in early 2022.

The Merrylands CBD works will then allow the Merrylands Civic Square to get underway.

The Avenue Bridge

The repair of the Avenue sandstone bridge. Sandstone blocks from heritage bridge wall were dislodged or damaged following car accident.

The dislodged sandstone was collected, refurbished and reinstated using traditional lime mortar, consistent at the time of initial construction. This process helps retain the heritage item for future generations and we have upgraded the bridge wall to a safer condition
