Beechwood Avenue, Greystanes Asphalt Resurfacing

This section of road carries a high volume of traffic and as such the road condition had deteriorated resulting in water ponding, kerb and gutter damage, cracked surface, and potholes. All this resulted in a poor ride quality and risk to the community. As part of rehabilitation works road pavement was excavated and asphalt was placed and compacted. Sections of damaged kerb were reconstructed and the surface was finished with linemarking.

Daniel Street, Greystanes Asphalt Resurfacing

From Dennis Street to Montague Street. This section of road carries a high volume of traffic and as such the road condition had deteriorated resulting in water ponding, kerb and gutter damage, cracked surface, and potholes. All this resulted in a poor ride quality and risk to the community. As part of rehabilitation works road pavement was excavated and asphalt was placed and compacted. Sections of damaged kerb were reconstructed and the surface was finished with linemarking.

Braeside Road, Greystanes Pedestrian Crossing

Installation of new raised pedestrian crossing at Braeside Road, Greystanes including new construction of footpath, blister island, linemarking, dish drain and kerb and gutter.

Ringrose Avenue, Greystanes Pedestrian Crossing

Installation of new raised pedestrian crossing at Ringrose Ave, Greystanes including adjustment to kerb inlet, relocating signage, new linemarking, relocating pits and installation of drainage pipe
